DRAPER *et al.*  
Appl. No. 09/719,002  
(National Phase of International Appl. No.  
PCT/GB99/01949, filed June 21, 1999)

### ***Remarks***

Applicants hereby state that in accordance with 37 C.F.R. § 1.825(a), the changes made to the sequence listing include no new matter. Applicants have merely amended the sequence listing to add inventor Robert DARBY, whose name was inadvertently omitted from the sequence listing. Support for this amendment can be found in the executed Declaration submitted herewith. In addition, Applicants have amended SEQ ID NO:1 to add an "A" at position 401 and a "C" at position 450. These nucleotides were inadvertently omitted from SEQ ID NO:1 but are present in Figure 6 of the PCT application as originally filed, at positions -72 and -22. Thus, no new matter has been added to the sequence listing.

In accordance with 37 C.F.R. § 1.825(b), the paper copy of the Sequence Listing and the computer readable copy of the Sequence Listing submitted herewith are the same.

It is respectfully believed this application is now in condition for allowance. Early notice to this effect is earnestly solicited.

Respectfully submitted,

STERNE, KESSLER, GOLDSTEIN & FOX P.L.L.C.

**Version with markings to show changes made**

The existing Sequence Listing for the above-identified application was replaced with the substitute Sequence Listing appended hereto, which was inserted at the end of the application.
